CLINICAL RESEARCH FACULTY MEMBER
Department of Infectious Diseases

St. Jude Children's Research Hospital DEPARTMENT OF INFECTIOUS DISEASES invites applications for a tenure-track Assistant or Associate-level FACULTY position within an internationally recognized department. In addition to laboratory based programs in microbial pathogenesis, the department has extensive clinically based research programs, including immunocompromised patients relevant to infectious diseases.

M.D. or M.D., Ph.D. degree(s) and thorough knowledge of clinical research is required. The candidate should have specific expertise in translational research and should have experience in the provision of patient care for immunocompromised patients. Board certification in Pediatric Infectious Diseases is highly desirable. A very generous recruitment package commensurate with experience is available. Recruiting deadline is June 1, 2014.

Applicants should include curriculum vitae, statement of research interests and goals and should arrange to have three letters of recommendation forwarded to:

Elaine I. Tuomanen, M.D., Chair
Department of Infectious Diseases, St. Jude Children's Research Hospital
262 Danny Thomas Place MS #320, Memphis, TN 38105-2794

**Deputy Dean for Scientific Affairs
and Graduate Studies**

The City College of New York

The Sophie Davis School is a seven-year integrated curriculum leading to Bachelor of Science (B.S.) and Doctor of Medicine (M.D.) degrees. Founded in 1973 and located on The City College campus, its mission is to expand access to medical careers for under-represented minorities and economically disadvantaged youth and to encourage and prepare students to provide primary care in New York's underserved communities. It has the highest proportion of under-represented minority medical students in New York State and one of the highest in the nation. <http://www1.cuny.edu/prospective/med/>

The Deputy Dean for Scientific Affairs is the chief research officer of the School and the spokesperson and champion for all research, scholarly, and creative work. In addition, he/she will lead and supervise the School efforts in building and supporting an outstanding graduate program. His/her efforts will focus on expanding scholarly activities in all academic areas and developing new institutional research and graduate programs through the development of strategic partnerships within CCNY and CUNY. In close collaboration with the Dean, he/she will serve as the chief liaison between the School, federal and state funding agencies, and other external partners. He/she will have responsibility for promoting, supporting and expanding the research mission and graduate educational activities within the school while ensuring that these responsibilities are actively and effectively pursued and valued in the faculty personnel process. He/she will also play an important role in assisting faculty to obtain and manage external funding. The Deputy Dean for Scientific Affairs will work closely with the Dean on strategic initiatives to develop research and graduate educational initiatives as well as with the Development Office to maximize private foundation and corporate connections in support of grants and gifts.

The Deputy Dean will possess an earned doctorate and qualify for tenure at the rank of full Professor in one of the departments of the School, with a strong background in teaching and research and a record in funded research. The successful candidate will have management experience in an academic environment and will demonstrate highly developed consultative, negotiation, and communication skills. Experience with LCME accreditation is highly desirable. He/she will demonstrate a commitment to diversity and to promoting a culture that nurtures various forms of inquiry and scholarship, across multiple disciplines.
